FACTORY MEWS

FIRST RELEASE – Fabulous apartments in the heart of Bohemian Kemp Town

Factory Mews is the latest cool scheme by boutique developers

Creative Developments. This attractive courtyard development is composed of

just three apartments and three townhouses, in the heart of bohemian Kemp Town, each overlooking an attractive, tranquil courtyard. "Creative Developments consistently produce desirable, contemporary, city-style living spaces," says Sara Van Loock, sales manager for Mishon Mackay New Homes, "and each new project is eagerly awaited by buyers."

Beautiful, contemporary, well-planned accommodation with exceptional attention to detail comes as standard and each stylish home delivers an ergonomic, flexible layout, as well as sunny outside space, including spacious terraces, balconies or roof terraces.

The three stunning loft-style apartments will be launched first and are unique living spaces skilfully created from a historic 19th century former factory/warehouse building. The conversion has been carefully executed to fully engage with the building's original heritage and retains many unique features including high vaulted ceilings, exposed roof trusses and original brickwork. These combine beautifully with the light and airy open plan interiors, warehouse-style high windows and industrial walkways and terraces, delivering a youthful, stylish ambience which will appeal to any urban fashionista. The internal finishes incorporate Italian kitchens with stone worktops, and the ground and first floor apartments have modern log burners, to complete the contemporary styling.

The townhouses are still under construction and will be launched early in the New Year and offer well planned accommodation of over 1,400 sq. ft. plus a secure single garage. Contemporary high quality finishes complement the modern architectural system to create stylish family

Unique living spaces skilfully created from a historic 19th century former factory/warehouse building

homes with 3/4 bedrooms and generous living areas. These new build homes are built to sustainable homes code level 3 creating an eco-friendly living environment. High levels of thermal insulation and solar PV panels will reduce running costs as well as your carbon footprint.

The beautiful apartments are just coming to completion, and the first opportunity to view will be the special launch day on Saturday 31st October. Prices start at £525,000, and for a full brochure and price list, contact Mishon Mackay New Homes 01273 829300, newhomes@mishonmackay.com or Graves Son & Pilcher on 01273 321123 or info@gsp.uk.com
